3 Strong Point

1

All ingredients are EWG green level

The mild but powerful high functional cream is completed by including scientifically proven effective ingredients, naturally derived patented ingredients and active ingredients of plant, which are made to be effective bio ingredients.

2

Cream with different texture - Excellent Texture

Till now, high functional cosmetics were known to be sticky and heavy, and naturally derived ingredients were not absorbable to skin. We took the advantages of high functional and naturally derived ingredients, and improved the disadvantages. Heydays Again Change Cream is very applicable and absorbable and at the same time not sticky or too heavy.

3

Cream with no irritation - Result of skin irritation test 0.00

All ingredients that are absorbed through skin must be safe. This is a product even safe for pregnant women. Skin irritation 0.00 certified by <human skin clinical test center> Controls you inner and outer skin with no irritation.
